

ACM Education series band saws

We can offer schools a full range of workshop services including:

- Electrical and mechanical machine inspection, servicing, refurbishment and repair
- Fitment of new control systems and guarding to existing equipment to bring it up to current H&S standards
- Purchase of surplus or redundant equipment at fair and competitive prices
- 'Source and supply' of quality, new and used machinery and equipment including extraction, work benches and storage
- End-to-end design and installation service for both existing and new-build schools

The ACM Education range of band saws are a high-specification, Italian-built machine, ideally suited for the educational workshop. All feature the following as standard:

- Full guarding with interlocked doors
- Ceramic blade guides
- Latching foot stop
- Mechanically braked motor
- Table tilting from 0° to 45°
- Blade tension indicator
- Key operated interlock switch

There are 3 models in the series – the 400, 402 and 600. The 400 and 402 are the same size and cutting capacity but the 400 runs on a single-phase motor whereas the 402 has a 3-phase motor. The 600 is the largest model with a 3-phase motor, greater cutting height and width capacity and larger table size, making it ideal for prep-room use.
